# OUR PROMISE

Sunbrella textiles give designers an inspired palette of rich colors, styles and textures to create extraordinary furniture and spaces. Architects use Sunbrella as a building material to create innovative shade structures and enhance their ideas and designs. Consumers use our textiles to express their unique style and create beautiful and welcoming spaces indoors, outdoors and on the water. The influential trade audiences use Sunbrella to create the absolute best premium products on the market, with reputations second to none.

## UNPARALLELED PERFORMANCE

**UV / Fade  
Resistant**

Sunbrella fibers are saturated with highly UV stable pigments. Traditional dyeing methods only add color to the fiber exterior. Sunbrella fabrics' performance characteristics are an integral part of the fabric, not an applied finish that would wash off over time.

**Mold / Mildew  
Resistant**

Sunbrella fabrics inherently resist the growth of mold and mildew. To keep your fabrics looking clean, brush off dirt and debris before it gets embedded in the fabric.

**Bleach  
Cleanable**

To easily remove tough stains, simply clean Sunbrella fabrics with a bleach solution. Because the color goes to the core of the fiber, the fabrics will not lose their color.

**Sun  
Protection**

The Skin Cancer Foundation recommends Sunbrella fabrics in shading products as an aid in the prevention of sun-induced damage to the skin as a part of a complete sun protection regimen, including regular use of sunscreen.

**Breathable  
Comfort**

Sunbrella shade fabrics are breathable and allow air to pass through them, creating a comfortable space below.

Sunbrella Crest, Silica, Tweed and Canvas fabrics are 100% Sunbrella acrylic.

Sunbrella fabrics are non fire retardant. Do not expose to extreme heat or fire.

## SPECIALTY FABRICS

Sunbrella Plus (10oz)  
Black 8408-0000

A traditional Sunbrella shade and marine fabric with a durable polyurethane undercoating for superior water resistance. Sunbrella Plus uses standard Sunbrella colors for easy color coordination and is ideal wherever water resistance is critical.

Sunbrella Clarity (10oz)  
Black 83008-0000

For shade applications that need to look their best but won't get regular cleaning, Clarity features a durable water-resistant polyurethane undercoating and a special finish that uses sunlight and rain to remove organic contaminants and stains such as streaks caused by roof run-off.

Sunbrella Supreme (12.5oz)  
Black with Linen Flock 9408-0001

A luxurious, waterproof exterior marine fabric featuring Sunbrella canvas on the exterior face, and a special Sunbrella flocking on the reverse side. The unique bonding process creates a waterproof Sunbrella canvas with a beautifully soft headliner underneath.

# SUSTAINABILITY

---

## Solar Energy

A solar array at the Sunbrella plant in Norlina, NC generates enough energy to power 47 homes, and combined with an upgrade of all light fixtures, has reduced the plant's annual CO2 emissions by 1,000 tons.

## Zero Landfill

No Sunbrella manufacturing facility in the world sends waste to landfills. A result of our focus on efficiency, this monumental achievement allows Sunbrella to lead by example, putting sustainability into practice every day across the globe.

## Recycle Sunbrella

Help us remain sustainable. Sunbrella provides a unique way for you to recycle Sunbrella fabrics through a revolutionary take-back program, "Recycle My Sunbrella." Learn more at [www.recyclemysunbrella.com](http://www.recyclemysunbrella.com).

## Wastewater Reduction

Our unique coloring process not only makes Sunbrella fabrics fade-resistant, it also conserves more water than conventional dyeing processes.

## Create Less Waste

Because Sunbrella fabrics last longer and need to be replaced less often than traditional fabrics, they ultimately create less waste than fabrics that mildew, fade or lose strength quickly.

# CERTIFICATIONS

---

The Skin Cancer Foundation recommends Sunbrella fabrics in shading products as an aid in the prevention of sun-induced damage to the skin as a part of a complete sun protection regimen, including regular use of sunscreen.

Sunbrella shade fabric has achieved GREENGUARD GOLD Certification. Sunbrella shade fabrics are certified by GREENGUARD as contributing to healthy indoor air by being a very low emitting interior product.

We stand behind our fabrics with a guarantee that's best in the industry: a 5-year limited warranty for decorative shade fabrics and specialty fabrics like Sunbrella Clarity, Plus and Supreme, and a 10-year limited warranty for shade and marine fabrics.
